Entries released

Every effort will be made to follow above schedule, but due to unforeseen circumstances schedule is subject to change.

- d. Entry forms are available in this premium book or additional copies can be picked up at the State Fair Administration Office.
- e. Entry forms may be mailed, or delivered to the State Fair Administration Office, open weekdays 8 am - 5 pm.
- f. State Fair will accept exhibits not pre-entered, but exhibitors are warned that it will take longer for check-in.
- g. Mailed entry forms and/or entries should be sent to: Entry Office, Montana State Fair, 400 3rd St NW, Great Falls, MT 59404. Entries to be returned by mail MUST have return postage included or they will be returned COLLECT.
- h. All possible care will be exercised by State Fair in handling exhibits, but no responsibility for loss or damage in transit or during any phase of the exhibit will be assumed by State Fair.
- i. No entry fees for this department.
- j. All entries in this department must be products of the state of Montana and must have been grown or raised by the exhibitor in 2004 or 2005. Exhibitors may be required to make affidavit that their exhibit complies with this rule.
- k. After the entry of the exhibits, same shall be under the control of superintendent, and no one will be allowed to remove or change them until the exhibition is closed. They will then be released upon presentation of claim check.
- l. When there is no competition or when an exhibit is not worthy of first prize, the judge shall place it in the class to which it belongs, as judged by the standard of the article. The judge shall decide as to which is standard.
- m. Exhibitors are limited to one entry and one premium in each class number.

- GF-301-93 Weed Educational Display (12 pressed, mounted & identified weeds)
- GF-301-94 Life of a Wheat Plant Educational Display (sprouting, root development, 2nd leaf stage, etc.)
- GF-301-95 Educational Display, Any Other

## GARDENING

### REGULATIONS

- NOTE:** To insure a fresh and attractive exhibit, gardening is divided into two shows. Please check entry deadlines and judging times at the beginning of this department.
- Containers will be furnished to display entries.
- The Superintendent shall have the right to remove from exhibition, at any time, any exhibit or any part thereof which is unsightly.
- Duplicates must be provided for all collections. Vegetables judged in individual classes cannot be used in Division 14 & 15.

### HINTS TO EXHIBITORS

**Judging Factors:** Type, quality and uniformity are basic conditions that are used in judging. Type refers to specimens that are regular and typical of the variety. All vegetables of an entry must have the best characteristics of a kind. Quality includes primeness for intended use; size, tenderness, cleanliness and freedom from blemishes, damage or defects. Uniformity relates to each specimen having the same shape, size and colors as the others in a given exhibit.

To obtain the best vegetable for home use or exhibition, the vegetables need adequate substance (NPK) nitrogen, phosphorus and potassium plus secondary and trace elements. Water, sunlight, air and suitable climate are also necessary. The gardener will need to space the seed or thin the plant later to allow growing space. He should water evenly, control insects and diseases, cultivate and hillup the root crops to protect them.

For exhibition, all vegetables must be clean and free from insect damage. Wash them gently to avoid injury or damage and, if storage is necessary, place in a cool, moist place. Leave approximately three-fourths inch of top on root crops such as beets and carrots and about the same amount of root on above ground crops such as cabbage, chard, celery, etc.

Onions, Dry - About 8 days before exhibition lift from garden. Just above bulbs, bend top over finger when limp, twist slightly. Spread out in a warm, dark, ventilated place to dry. At fair time, remove tops, lightly rub off any loose outer skin and dry roots. Do not damage root node.

Onions, Green - Lift just prior to exhibition, avoiding damage to root node. Trim roots and tops. Remove outer layers of skin to get dirt off and wash. Choose plants that are well blanched or white.

Potatoes - After digging allow them to dry 20 minutes or so to set the skin, wash gently. Avoid rough handling.

Rhubarb - Take firm hold on stalk, gently bend toward you, then with a quick pull the stalk will come loose at base around the crown. To remove the leaf, cut from point a half inch from each side of stem in triangle pattern to center leaf vein above. Leave base of stem intact.

### GARDENING SHOW 1 DIVISIONS

- 8 OPEN CLASS VEGETABLES
- 9 LARGEST SPECIMENS OPEN
- 10 FREAKS OR ODDITIES
- 11 ORGANIC VEGETABLES
- 12 GOLDEN AGE GARDENER
